

To All of Siouxland!

Adjusters, Agents, Claims Personnel and Property Owners have worked with many restoration companies but few have found one they can truly count on to take care of the property owner, do the job right, work ethically and understand the estimating process all while providing a great end result. Have you found the BEST restoration company that can help make your job easier? Visit our website, www.1st-restoration.com and read a few of our testimonials then give us a call with your next claim.

We look forward to tackling your next property restoration challenge!

IICRC Certified

In addition to our Fire, Water, Wind Damage, Mold Remediation and Lead Abatement did you know that we provide these additional services?

Dry ice blasting uses non-toxic, non-hazardous, high-density dry ice pellets in a high-velocity airflow to blast away unwanted surface materials (ex: graffiti, grime build-up). On impact, the pellets instantly sublime without generating any secondary waste, so dry ice blasting is a cleaner way to clean. Dry ice blasting also meets EPA, USDA, and FDA guidelines. www.diamonddryiceblasting.com Thermal Energy System (TES) and represents a practical way to implement a new understanding of the Science of Drying that will allow restorers to dry wet structures at least twice as fast as ever before! TES will completely dry Class 1 and 2 water losses involving up to 1500 sq. ft. in 30 hours or even faster! Class 3 and 4 losses will take longer to dry but will still dry dramatically faster than conventional drying systems. www.tesdryingsystem.com

Boom Lift Services are needed on many jobs and not many local restoration companies own one. We use ours on a daily basis and since we own it, you would not incur any extra fee's to cover a rental expense.

Hazardous/Chemical Spills can be a dangerous clean up and should be done in the most safe and effective manner possible. Accidents happen, so let our trained team members take the danger out of the process so that the business or home doesn't need to put their life on hold for longer than necessary.

Crime Scene Clean-Up can be a very emotional and difficult job for anyone to do. The property owner shouldn't have to deal with this and the event that caused it. Please allow our trained team members to help alleviate some of the discomfort as they respectfully clean the property and dispose of all waste in the appropriate manner.

Still need more help??
